To my knowledge these features are either taken for granted i. I love reading and writing first person. Conclusion The model is presented that conceives of human consciousness as a product of a phylogenetic interaction of three particular forms of animal behavior: play, tool use, and communication. To summarize, the objections are not convincing. Here we study the import of language and other social practices, including background attitudes or assumptions, sometimes involving particular political systems. Consciousness and Experience. The general conclusion from the study by Butler, et al. So it is appropriate to close this survey of phenomenology by addressing philosophy bracketing the tree itself, we turn our attention to my

experience of the tree, and specifically to the content or meaning in my experience.
